Our two day event turned into a one day event given the circumstances this year. The Tire Rack is still hosting autocross events on a Sunday only schedule. Several clubs have done autocross events successfully. Social distancing will be practiced by everybody, with masks being worn if you are closer than six feet from each other. No passengers will be allowed in the car during runs. The Tire Rack facility will be closed. A port-a-potty will be available with wipes and hand sanitizer. Please come on out for a fun day on the track whether you are driving or not. At the end of the day, fun runs will be available if you want to give it a try.

Directions to the Tire Rack (allow 2-1/2 hours)
