

The drag race day started, without a cloud in the sky.  
With club member Wilbur, being the first to arrive.  
The next stop was tech, when they look at your car.  
They were more concerned about your helmet, that it is totally up to par.  
We unloaded our cars and set up chairs and canopy tent.  
This was our home base, for the drag racing event.  
Not all that had come, were out to race.  
They were there, just for the fast pace.  
There was Linda and Jim Barnish, Glen Blum and his son,  
Checking out the cars and seeing how they run.  
Wilbur Buckle, Frank Punzio and Larry Latko did race,  
Along with Debbie Monnier and Tom Arvidson, her co-pilot ace.  
Wilbur and Larry were the first to bracket race,  
With Wilbur braking out and losing, ending his case.  
Debbie and Frank were next to race the bracket,  
With Frank crossing the starting line, before they went at it.  
Larry and Debbie were the final two to go,  
Larry winning the race and stealing the show.  
The day was just perfect, with not even dragsters that were too loud.  
More of a picnic day with a very scarce crowd.  
The first club drag race is totally in the book,  
Hopefully, more will drive out to the second, even for just a look.
