

Go-Karting at

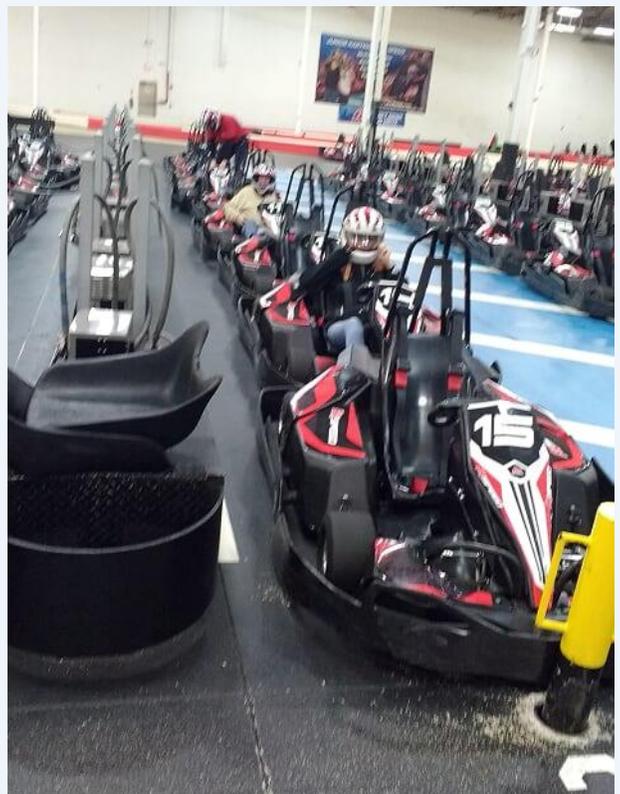

**Tuesday - February 12, 2019**

Well, the go-karting event at K1 Speed went as well as expected, considering this was the third try to do this. The weather was a minor threat this time around, but not enough to discourage eleven members and two guests in enjoying the evening.

Upon our arrival, it looked like we were going to have the whole place to ourselves. We pretty much did, with the exception of a group that arrived after we did our first set of races. We did two groups in both races.

Five people in each group for the first set and a five and three-person group for our second set of races. A few members came to spectate; Glenn Blum, Jazmin Ramirez and Gale Egle. Gale's son, Eric, and his girlfriend Katlyn were our guest racers. I believe everybody used a Groupon discount to save a few bucks, which is always a good thing.

Go-Karting at

**Tuesday - February 12, 2019**

Coming in first place, for the entire event was Frank Punzio with a time of 19.486. Tom Arvidson had a 20.011, for second place and Daryl Ullberg came in third place with 20.118. All the races were really close and it was nice not having nine go-karts racing at one time. The smaller group format opened things up a bit. For the three women racing, Katlyn took first place with a time of 20.962 in her second race. Renee Ullberg, second place, 22.581 and Debbie Monnier in third place at 22.663. Debbie and Renee raced only once and if they did the second race, I'm sure they would have bettered their times.

With the first go-karting event in the books, the next two events are not far away and hopefully the weather will only get more Corvette friendly. In fact, no-one drove their Corvette to this evening's event. So weather was in the back of Daryl and Eric's mind, in them driving their Corvettes, something they always are proud to do.

The next go-karting event will be on February 26 at 7PM, so don't be shy and come on out.
