

## ***A Night at the Races***

On March 22<sup>nd</sup> 2016 twenty two of us met at K1 Racing in Buffalo Grove. K1 Racing is an indoor go-kart track that provides electric run go-karts. Very little noise, no fumes and they are quick.

We were split into two groups and the track was very challenging. A lot of turns, some which were tight and it was difficult to hold the line. There were a few wrecks which ended up with one of us nose first into the wall. After a brief delay we were all back racing.

Along with the racers were our cheerleaders. They sat up in the K1 tower and bar sipping drinks and watching us battle it out through large windows. After racing we celebrated Tom Arvidson and Ed Harms' birthdays with plenty of cake.

Electric go-karts is an exciting and safe activity. The only thing that might get bruised is your ego.
