

Lake County Honor Flight #12

On Sunday afternoon, the 29th of April, 14 members in 8 Corvettes met at the Wisconsin Visitors Center in Pleasant Prairie. We drove together to Milwaukee's airport to bring the veterans back to North Chicago. We greeted the veterans in the terminal. They were greeted by a *water salute* on the tarmac by the fire department. After a lot of picture taking, we headed outside to form the return escort. Along with the Corvettes, there were about 100 motorcycles and even more officers and military to help with traffic control. To enter the highway, the police blocked off traffic on all 3 lanes of Interstate 94 for the group to stay together. Even with all of the construction in Wisconsin, we barely had to come to a complete stop all the way to North Chicago. The traffic control was excellent. After we arrived and parked in North Chicago, we greeted the veterans as they exited the bus. Many people spoke at the ceremony; the mayor of Winthrop Harbor among others. All in all it was a very emotional experience, whether you were a veteran on stage or someone in the audience.

Thank you again to all of the NSCC members who joined us over the weekend. The veterans earned and deserve all of our support. See all [pictures](#).

Shown above are all of the veterans from Lake County Honor Flight #12.
