

METAL CAR WINTER CRUISE  
(AKA Masked Rider Cruise)

Twenty enthusiastic NSCC members gathered at the WI Welcome Center on this sunny, bright, lovely morning...at least in our imaginations! The weather took a turn as is common this time of year and we started in gray, foggy conditions BUT it didn't dampen our spirits for adventure. Everyone agreed it was soooo good to be out and about and seeing friends in person again. Members wore their masks and tried to maintain social distance as we met and got ready to ride.

After signing in and having a driver's meeting, the 20 participants in 11 cars broke into a couple of groups and headed out. One group decided to stop for a meal in Palmyra and the other group took the 2 comfort stops and got their food on the way. Some of us stopped at the end at Bong State Recreation Area to say goodbye, hoping it won't be too long before we see each other again.

Although the event was a metal car/corvettes optional event, Greg & Marie Eckert, Ron & Susan Pontecore, Sue Radder and Daryl & Renee Ullberg brought their Corvettes out for the ride. In the end, Greg remarked that he was glad the week would have days in the 50's so he could get his car washed! I think the sedans, SUV's and trucks on the ride could benefit from a bath as well.

Thank you to everyone who road with us today! We look forward to the Rustic Road Cruise on May 22<sup>nd</sup> with 105 miles and 25 rustic roads with an optional lunch at Michael's on the Lake. Hope you can join us!

Enjoy!
