**O**ur new **North Shore Corvette Club All Corvette show** is coming up quick. We're excited to be back in the car show arena. We look forward to Saturday September 17<sup>th</sup> at Blackdog Speed Shop. I know we can fill the lot with the best Corvettes in the area.

We'd like to thank our friends at Blackdog Speed Shop for their hospitality, letting us use their facility for our show. What a backdrop for an outstanding Corvette Show.

I hope you will join in and participate in the car show. Tell your friends and family to jump in if they have a Corvette or visit if they don't. Full information about the show and a copy of the flyer are on our

**website: <https://northshorecorvetteclub.org/2022carshow.html>**

Please use the Pre-registration form online and PayPal to get your car registered early. Instruction to mail in a form and check are also on the web page.

Watch for a Car Show helpers' sign-up sheet. We will need all the help we can get.

Enjoy the show.

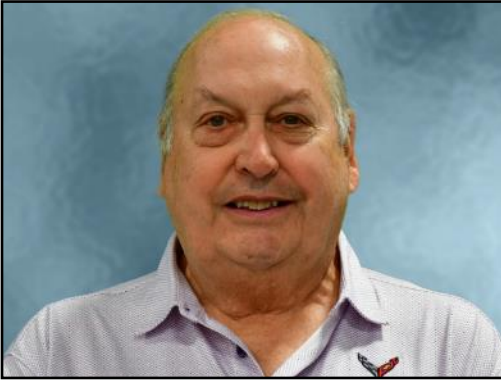

The NSCC Board of Directors would like to thank Walt Hoepfner for his service on the board. Walt and his wife Anne are moving to Arizona, and we will miss them. They will stay as NSCC members. Best of luck to Walt and Anne.

### Many Great Announcements in September

**G**M is making a lot of announcements in September regarding the Corvette Plant in Bowling Green, production schedule for the ZO6, the list of restrictions for the plant in building Corvettes. Due to the complexity and the many parts required for different models the plant has a number of restrictions: Here is a partial list-

**Convertibles**—no more than two in a row

**ZO6**— No more than two per hour

**Export**—6PF No back to back builds

**RHD**— build in batches only-weekly constraints

**Japan**— No back to back

**California Emissions**—No back to back

**70th Anniversary**— No back to back

**Dual tops**—No back to back

**Front Lift**—No more than three in a row

**25% Color**—Max of same paint color per day

The first big announcement is the start of plant tours at the Bowling Green Assembly Plant beginning in **November 2022.**

The engine build for the new LT6 Flat Plane Crank DOHC engine will be available for those owners who elect to build it in **April 2023.** So we hope to keep you informed as information is available.

# Safety Tip of the Month

Ken Such - Safety Chairman

**September 2022**

## **School Buses and Emergency Vehicles**

H

**I**t's that time of the year again and the school buses are out in force. School bus laws to alert motorists of pending actions:

**Yellow flashing lights** indicates the bus is preparing to stop and motorists should slow down to prepare to stop

**Red flashing lights and extended stop arms** indicate the bus has stopped. Motorists must stop their cars and wait until red lights stop flashing, the extended arms are withdrawn, and the bus begins to move before you can proceed. The only time a vehicle is **not** required to stop is when both vehicles are on a four lane-lane roadway and the bus is stopped in the opposite direction from which the driver is traveling. One must be very cautious because some drivers do not know this rule and will stop in your lane.

A reminder of **Scott's Law**, known as "**Move Over Law**". It is mandatory that when approaching any police or other emergency vehicle, including snowplows and tow trucks, the law means, you must: change lanes if possible, always reduce speed, but greatly reduce speed if you cannot change lanes.

# NEWS FROM THE NCM

## Upcoming Museum In Motion Events

The National Corvette Museum is unlike most other museums in the world. Though located in Bowling Green, Kentucky—the Museum is proud to have members from all across the country and even internationally. In an effort to bring the Museum to the enthusiasts, a selection of excursions are offered each year. Branded “Museum in Motion”, the program features tours around the United States as well as Canada England and France. The Museum in Motion events combine the fun of driving, socializing with other Corvette enthusiasts, sightseeing and visiting unique places—including many V.I.P. and behind the scenes opportunities that only the Museum can get you.

Past tours have taken participants into places not usually accessible to the public including Milford Proving Grounds, Consumer Reports Auto Test Division, GM Heritage Center and Pratt & Miller.

### Upcoming Museum in Motion Events

## **Corvette Assembly Plant to Resume Plant Tours Beginning November 2nd**

**This is great news for all of us that have waited so long for a plant tour. Plus in April of 2023 the Corvette plant will be starting the Engine Build for those owners that elect that option for their ZO6.**

**Also in April of 2023 the ZO6 owners school will be starting at Spring Mountain in Nevada.**
