

BLACKHAWK FARMS OKTOBERFEST CORVETTE TRACKDAY

SATURDAY— OCTOBER 21, 2023

Six Club members, family and friends did not move their Corvettes, they drove their Corvettes, as owner of Blackhawk Farms Raceway, Paul Musschoot would say. And drive them we did. With the fall weather never in your favor, mother

nature did us good, with a beautiful fall day. There were four novice groups and one experienced group. We were all able to do five - twenty minute sessions throughout the day. There were also three touring session in-between all the other sessions. Everyone was able to take a lunch break together, with raffles happening from

Northstar Motorsports. None of our group were lucky this year, but it did add a little excitement. Russ Glover and Ken Barraza were able to drive without an instructor this year in their group

and Ed Harms and Loren McLean's son had the assistance of an instructor. Tom Ford was on hand with his brother soaking in the day. A couple friends and new friends joined our group between

turns four and five for the day. Ed had an instructor that made him totally comfortable and his day ever so enjoyable, which is what it is all about. It's kind of sad that pretty soon we will be putting our cars away for the winter, but we can defiantly say we did "drive" them to the end. Frank Punzio
