

# TRIBUTE AT THE ROCK

## THANKSGIVING MORNING 2023

**NORTH SHORE  
CORVETTE  
CLUB**

The annual trip to the Rock started with a few cups of coffee, compliments of Tommy “T” and some breakfast at Elly’s Pancake House. Yes, it was a sunny day but a little on the cool side. So after a few delays at breakfast, nine of us journeyed to the Rock. Traffic on the way was not bad at all considering our late departure

around 9AM and the construction along the way. Once on Lake Shore Drive traffic seemed non-existent except for the Corvettes on a mission. With the original site totally part of a new park and no

longer accessible, we

went to the new meeting place in the South lot of the Museum of Science and Industry. Upon arriving, we were able to park together at the north end of the parking lot, the only avail-

able spots with a capacity crowd on hand. After a walk through looking at all the cars we ventured up Lake Shore Drive and Sheridan Road to Tower Road Park on the lake front. Lake Michigan was really wavy and the wind was a howling. We met a gentleman from Arlington Virginia looking to settle in Illinois. He was really intrigued by our Corvettes and was taking pictures of them. It ended up that he owned a Corvette also and is interested in our club if he relocates here. It was getting close to noon and so we all headed to our family and Thanksgiving events. I was thinking that this might be the last Rock event, but with such a good time with other car enthusiasts,

the Rock must keep a’rolling. Frank Punzio
