

## Buffalo Grove Days Cruise-In Car Show

### Event Summary

Every year, the Labor Day weekend means the Buffalo Grove Days festival is on. This year was no different, and the Village brought back the popular Cruise-In Car Show. We wanted to go and show as a club, so several NSCC members met on a local street around the corner from the show. We drove over to the event and were able to park as a group. There were a few stragglers who met us at the show.

The club was proudly represented by 21 members showing 15 cars. Dean Tarkowski bought his new acquisition, a C7 Grand Sport purchased from Blackdog. This was the first time he displayed the car.

It was a VERY hot day. Special thanks to Glenn Agrest for his invitation to relax under his tent. We couldn't have enjoyed the day without the shade.

Overall, the show was a nice opportunity for friends to gather with their beautiful cars. There were some truly amazing cars on display. The festival was going on along with the show, and some of us took advantage of the festival-type food and drink. We're hoping Buffalo Grove runs the show again next year.
