

Go Karting and More Go Karting

Our club just participated in two go karting events with one more to go. The first karting event on Jan. 17th had four racers and several

spectators. We raced twice amongst ourselves and we had several spectators. It was an enjoyable evening.

The second karting event on Feb 28th was quite the contrast. There were 10 racers in the first race and six in the second. There were even more spectators that had the best view of all the action. I must say with ten racers at a time with mixed experience made it a little

challenging. In the future the racers will be split us according to experience and to generate more room on the track.

All and all both nights were fun and I'm looking forward to our third event on March 21st. So come on

out for the finale. Before you know it, we will not want to be indoors, we will be out in our cars, enjoying whatever we can, out on the road.
